6.2. Of the several conditions that affect the vision of the eye, the most common are:

- Presbyopia
- Hyperopia
- Myopia
- Astigmatism

These conditions can be corrected with corrective lenses, glasses, or contact lenses. Treatment options may include surgical procedures such as LASIK or cataract surgery. Regular eye exams are important to monitor and manage these conditions.

6.3. If you experience any changes in your vision, it is important to consult an eye doctor for a comprehensive examination to determine the underlying cause and appropriate treatment.

6.4. Vision is a critical sense for everyday life, and maintaining healthy eyes is essential for optimal performance.
